SUMMARY

Senior full stack engineer with 8+ years shipping production web and mobile products across fintech, healthcare, and marketplace domains. Core stack is TypeScript, React, Node.js, and PostgreSQL on AWS and Kubernetes, with a record of taking MVPs from zero to launch on teams of two to four engineers. Works remotely with distributed teams across US, EU, and APAC time zones.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript (ES6+), Python, Kotlin, Java, SQL, HTML5, CSS3/SCSS

Frontend: React, Next.js, Vue.js, Pinia, Lit, React Native, Flutter, Redux, RTK Query, Tailwind CSS, Material UI, WebSockets

Backend: Node.js, NestJS, Express.js, Fastify, FastAPI, REST APIs, OpenAPI, Microservices, Auth0, Stripe API, OpenAI API

Data: PostgreSQL, MySQL, MongoDB, Redis, OpenSearch, Amazon SQS

Cloud & DevOps: AWS, Docker, Kubernetes, Kustomize, ArgoCD, Jenkins, GitHub Actions, CI/CD, HashiCorp Vault, Datadog, Firebase

Practices: System Design, Distributed Systems, TDD, Jest, Agile/Scrum, Code Review, Performance Optimization, Security Best Practices, Technical Mentoring

EXPERIENCE

A5 Labs

Oct 2025 – Oct 2026

Senior Software Engineer (Contract)

Foster City, CA (Remote)

- Virtually eliminated production type-related defects across a 6+ package monorepo by leading an end-to-end TypeScript migration and enforcing strict compiler settings in CI.
- Unlocked entry into the China market and saved weeks of cross-team effort by delivering a zero-maintenance translation pipeline.
- Eliminated duplicate UI work across 3+ codebases by building a reusable Lit component library interoperable with both React and Vue applications.

G LNK (Y Combinator W25)

Jun 2024 – Sep 2025

Senior Software Engineer (Contract)

New York, NY (Remote)

- Shipped the production-ready MVP behind the company's successful YC application in one week with a two-engineer team.
- Improved API throughput by over 50% by replacing a monolithic OpenAPI SDK with domain-scoped microservices that removed request bottlenecks.
- Cut user-facing load times from roughly 10 seconds to near-instant by building an AI-powered provider layer backed by Redis caching.

Mynth

May 2023 – Jun 2024

Senior Software Engineer (Contract)

Wilmington, NC (Remote)

- Delivered a launch-ready digital-asset exchange MVP in 1 month with a 4-developer team, proving feasibility and preserving runway, by owning backend services and delivery scope.
- Enabled seamless, repeatable deployments by establishing an ArgoCD CI/CD pipeline over Kubernetes manifests managed with Kustomize.
- Reduced secret-exposure risk and enabled real-time incident detection by implementing Vault-based secrets management and cluster-wide Datadog logging.

Fusemachines

Jul 2021 – Mar 2024

Senior Software Engineer

Kathmandu, Nepal (Remote)

- Took platform search response times from double-digit seconds to milliseconds by re-architecting search onto OpenSearch with tuned indexing and query strategies.
- Shipped a client MVP from the ground up in 6 months with a 2-developer team by building the mobile client in React Native and backend services in NestJS and PostgreSQL.
- Raised code quality and onboarding speed across client engagements by mentoring junior engineers and driving adoption of automated testing and code-review standards.

Tootle

Jun 2018 – Jun 2021

Software Engineer

Kathmandu, Nepal

- Increased app stability from 60% to over 90% for Nepal's first ride-sharing platform by refactoring the native Android codebase and modernizing its dependency stack.
- Lowered Google reverse-geocoding costs by more than 50% by optimizing location-request patterns across the ride-booking flow.

SELECTED PROJECTS

- **Quintace** | quintace.ai | Fastify, PostgreSQL, Redis, Amazon SQS, Docker, AWS, TypeScript — Real-time multiplayer poker platform serving concurrent game sessions with queue-driven state management.
- **G LNK** | glnc.co | Next.js, React, Node.js, MongoDB, OpenAI API — AI-assisted marketplace matching healthcare providers to open roles.

EDUCATION

Sharda University

2015 – 2018

Bachelor of Computer Applications (BCA)

Delhi NCR, India
